Education

- MBM University** Jodhpur, Rajasthan
• *Bachelor of Engineering - Computer Science; GPA: 7.94* Aug 2024 - July 2028
- Relevant Coursework:** Data Structures & Algorithms, DBMS, Computer Networks, Computer Organizations and Architecture

Skills Summary

- Languages:** Python, C, C++, JavaScript (ES6)
- Frameworks:** React.js, Node.js, Express.js, Tailwind CSS
- Databases:** MongoDB, MySQL, SQL
- Tools:** Git, GitHub, Postman, Vercel, Firebase, REST APIs
- Core Concepts:** Data Structures & Algorithms, OOP, DBMS, Computer Networks
- Soft Skills:** Leadership, Event Management, Writing, Public Speaking, Time Management

Experience

- Binary29** Nov 2025 - Feb 2026
• *Software Development Intern (Full-Stack)* Hybrid
 - Engineered a full-stack E-Commerce Platform : for Swadeshika using Next.js, Tailwind CSS, and responsive frontend architecture, optimizing frontend performance and improving page load speeds by 30%.
 - Architected and integrated RESTful APIs: using Node.js and Express.js to automate inventory management for 100+ organic products, streamlining inventory management, backend workflows, and product data operations.
 - Implemented JWT authentication and scalable MongoDB database schemas: to support secure user management, role-based access control, and reliable application performance across core workflows.
- Essence World (UK)** June 2025 - July 2025
• *E-commerce Operations & Marketing Assistant* Remote
 - Prepared and validated product datasets: to enable bulk product listing automation, enhancing the efficiency of product onboarding workflows.
 - Contributed to an automated product publishing pipeline: for an international dropshipping store, reducing manual listing effort by approximately 60%.

Projects

- NearSwap – Campus Marketplace | (Link):** Location-based student marketplace platform. Tech: React Native, Node.js, Express.js, MySQL, Firebase Cloud Messaging • Developed a marketplace used by 80+ students with OTP verification and WhatsApp Cloud API authentication, reducing security vulnerabilities and fraud by 40%.
- Swadeshika – E-Commerce Platform | (Link):** Full-stack e-commerce platform. Tech: Next.js, Node.js, Express.js, MySQL, Tailwind CSS • Built an SSR-based platform improving SEO rankings by 25% and page load performance. Designed MySQL schemas and 12+ RESTful APIs to manage orders for 100+ SKUs.
- AI Resume Analyzer using Gemini API | (Link):** AI-powered resume analysis platform. Tech: MongoDB, Express.js, React.js, Node.js, Gemini API • Built a MERN-stack application using Gemini API to analyze resumes, identify skill gaps, generate interview strategies, and recommend personalized preparation paths.
- SPARK Club Official Website | (Link):** Official website for college club. Tech: HTML5, CSS3, JavaScript, EmailJS • Developed a responsive portal achieving 95+ Google Lighthouse performance score and streamlined event registration using EmailJS, increasing organic traffic by 20%.
- C++ Bill Management System | (Link):** Console-based billing system for small retail stores. Tech: C++ • Implemented product inventory management using OOPs concepts, automated bill generation, file handling for transaction records, and STL for efficient data operations.

Achievements

- Solved 400+ algorithmic problems across LeetCode and CodeChef, demonstrating strong proficiency in Data Structures, Algorithms, and problem solving.
- Recognized as a **National Finalist** in the National Entrepreneurship Challenge (NEC) organized by E-Cell, IIT Bombay. [Certificate]
- Completed the **Meta Frontend Developer Certification**, specializing in responsive web design, modern frontend architecture.[Verify]
